

Midlands Orthopaedics & Neurosurgery is pleased to offer bundled case rates for orthopedic and spine procedures to facilitate cost-effective, high-quality medical care for employers and employees. Rather than separating costs for each service, the bundled case rate includes all services provided over the prescribed episode of care. Any additional services that are recommended or required as part of the surgery will be clearly delineated and agreed upon prior to surgery. Some bundles include the cost of implants. For others, implants will be charged at cost (copy of invoice provided) after the surgery, but an implant estimate will be given pre-operatively.

Our bundled rates are available via the ShopHealth Healthcare Marketplace:

<https://shophealth.fmma.org/? token=wvy8DaQv2a3PIB3T9kJ0Grptu0mGfUPoAmNPMfwQ&provider=152&ort=title&direction=asc>

All services are performed at Midlands Orthopaedics & Neurosurgery offices and The Surgery Center at Midlands Orthopaedics & Neurosurgery on an outpatient basis. Some procedures do include one overnight stay. Patient eligibility for outpatient joint replacement and advanced spine procedures is determined by overall health status.

### **What's the Process?**

Request a preliminary quote via this link: <https://midorthoneuro.formstack.com/forms/bundledraterequest>

We will need to know the CPT codes or procedure names you would like quoted; the location of the patient; and the name/contact info of the person to whom we should respond.

To proceed after receiving the initial quote, our Nurse Case Manager will request patient demographics, any existing medical records and imaging. A surgeon in our practice will review to determine if he agrees with the previous diagnosis or if he requires additional information before accepting the case.

If the surgeon accepts the case, a formal Letter of Agreement will be provided outlining all services included in the case rate; any optional services or supplies that are required or recommended; the recommended time the patient should remain in Columbia post-operatively; and expectations for physical therapy and follow-up visits.

Upon receipt of a signed Letter of Agreement, the surgery date will be confirmed, and preoperative clearances/labs orders will be issued.

A face to face consult with patient and surgeon will be conducted prior to surgery. This consult will be scheduled based on patient's proximity to Midlands Orthopaedics & Neurosurgery.

Consults may be scheduled before the decision for surgery is confirmed if the patient lives within easy driving distance of Columbia, SC. This visit costs \$150, which will be attributed to the bundled rate if surgery is scheduled.

Patients who prefer not to travel for the consult visit in advance may meet the surgeon the day prior to surgery if we have been able to schedule it based on medical records received.

The bundled case rate payment listed on the Letter of Agreement will be expected within 30 days of the surgery being performed. Please let us know if you need an invoice in addition to the Letter of Agreement.

## Getting Started

1. Plan or Employer Representative submits request for preliminary quote:  
<https://midorthoneuro.formstack.com/forms/bundledraterequest>
2. To proceed following receipt of preliminary quote, Plan or Employer representative provides introduction to the person who will coordinate care for the patient. Our Nurse Case Manager, Candace Patton, will facilitate scheduling for the practice.
3. Provide contact information (name, phone and email) for Plan or Employer representative who will approve the Letter of Agreement if different than the patient liaison referenced in number 2.
4. Submit medical documentation and imaging studies to support need for surgery as well as general medical history if available. Imaging film AND reports are necessary. Email or fax to Nurse Care Manager (Candace Patton) listed below.
5. Patient may be asked to complete a New Patient Packet for Employer Directed Bundle at <https://midorthoneuro.formstack.com/forms/newbundle> if the medical records provided are not sufficient to assess the patient's overall health status.
6. Patient is expected to sign HIPAA Medical Record Release with patient signature at <https://midorthoneuro.formstack.com/forms/recordstomon>
7. Practice Nurse Case Manager will communicate directly with patient and/or designated Plan Representative to coordinate next steps.

## Contacts

Our dedicated team is here to provide efficient, quality care. To take the next step, please contact our first point of contact Candace Patton, Nurse Care Manager.

Clinical Liaison: Candace Patton
