Midlands Orthopaedics & Neurosurgery Announces New CEO

Midlands Orthopaedics & Neurosurgery is excited to welcome Ron Chorzewski as Chief Executive Officer.

With over 30 years of experience in the healthcare field, Ron started his career as a Physical Therapist upon graduation from Connecticut's Quinnipiac College. He has extensive experience in both rehabilitation and orthopedic administration. Ron earned a MBA at Suffolk University in Boston.

Ron's healthcare-centric family includes his wife who is a Physical Therapist, one daughter training to be a Nurse Practitioner, another daughter pursuing a BSN, and a son training to be a Physician Assistant. He still aspires to hold a management position in his own family one day.

Ron succeeds AnnMargaret McCraw, who is transitioning out of private practice management after 23 years at Midlands OrthoNeuro – the past 11 years as CEO. Effective January 1, 2022, AnnMargaret will join Cobbe Consulting & Management to offer management support for its orthopaedic specialty societies. Until then, AnnMargaret is working alongside Ron to facilitate a smooth transition at Midlands OrthoNeuro.
