

Hip Follow-Up

Long-Term (>2-Year) Interval

Dear patient: This is a friendly reminder for your long-term hip follow-up. We would like to continue to monitor the status of your implant **every other year postoperatively**, even if you are feeling great. Long distance follow-up evaluations for out-of- state patients are fine. We would like to ask you to complete the following evaluation protocol.

Summary of this Follow-Up

1. Hip questionnaire (pg 3): We keep track of each joint separately in our database. Therefore, I would like to request that you fill out a self rating form for EACH hip, even if both are identical. Please send to us.
2. Hip X-Ray (pg 7):
 - a. Add your name and DOB to the x-ray request
 - b. Have the x-ray of your hip(s) done at your local hospital or freestanding radiology facility and request a CD copy of this x-ray be sent to us

As soon as we receive all of the above, Dr. Gross will review them and send you a written response. If you prefer to travel here for an office visit for evaluation, please call our appointment line to arrange this (803)-256-4107 (*routine office charges will apply*). If you are having significant problems with your hip, I will need to see you in the office for complete examination to best diagnose it.

Thank you for your attention to this matter. If you have any questions, please contact us for assistance.
